## Paper 2 (Calculator)

**Foundation Tier**

Sample Assessment Material

**Time: 1 hour 45 minutes**

Paper Reference

**1MA0/2F**

**You must have:** Ruler graduated in centimetres and millimetres, protractor, pair of compasses, pen, HB pencil, eraser, calculator. Tracing paper may be used.

Total Marks

### Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions.
- Answer the questions in the spaces provided  
– *there may be more space than you need.*
- **Calculators may be used.**
- If your calculator does not have a  $\pi$  button, take the value of  $\pi$  to be 3.142 unless the question instructs otherwise.

### Information

- The total mark for this paper is 100.
- The marks for **each** question are shown in brackets  
– *use this as a guide as to how much time to spend on each question.*
- Questions labelled with an **asterisk** (\*) are ones where the quality of your written communication will be assessed  
– *you should take particular care on these questions with your spelling, punctuation and grammar, as well as the clarity of expression.*

### Advice

- Read each question carefully before you start to answer it.
- Keep an eye on the time.
- Try to answer every question.
- Check your answers if you have time at the end.

## GCSE Mathematics 1MA0

Formulae: Foundation Tier

**You must not write on this formulae page.  
Anything you write on this formulae page will gain NO credit.**

**Area of trapezium** =  $\frac{1}{2}(a + b)h$

**Volume of prism** = area of cross section  $\times$  length

**Answer ALL questions.**

**Write your answers in the spaces provided.**

**You must write down all stages in your working.**

**1** Susie has one pound and sixty pence.

Her friend, Katie, has two pounds and five pence.

They want to buy a pizza between them.

The pizza costs £3.50

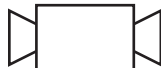

How much money will they have left?

Show your working here.

**(Total for Question 1 = 2 marks)**

2 The pictogram shows the number of packets of toffees sold by a shop some days in one week.

Monday		<p>Key</p>  <p>represents 20 packets</p>
Tuesday		
Wednesday		
Thursday		
Friday		
Saturday		

(a) Write down the number of packets of toffees that were sold on

(2)

(i) Tuesday,

..... packets

(ii) Thursday.

..... packets

40 packets were sold on Friday.

30 packets were sold on Saturday.

(b) Use this information to complete the pictogram.

(2)

**(Total for Question 2 = 4 marks)**

3

(a) Write down the fraction of this shape that is shaded.  
Write your fraction in its simplest form.

(2)

.....

(b) Shade  $\frac{2}{3}$  of this shape.

(1)

**(Total for Question 3 = 3 marks)**

4 Here is a dual bar chart showing the number of hours of TV that Helen and Robin watched each day last week.

(a) Write down the number of hours of TV that Helen watched on Monday.

(1)

..... hours

(b) How many more hours of TV did Robin watch than Helen watch last week?

(2)

.....

(c) Find the median of the number of hours Robin watched TV last week.

(2)

.....

(d) On Saturday and Sunday Helen watched 7 programmes altogether.

Work out the average length of the programmes that she watched.

(2)

.....

**(Total for Question 4 = 7 marks)**

- 5 (a) On the probability scale below, mark with a cross (×) the probability that it will snow in London in June. (1)

- (b) On the probability scale below, mark with a cross (×) the probability that it will rain in Manchester next year. (1)

- (c) What is the **probability** that you will get a head when you flip a fair coin? (1)

.....

**(Total for Question 5 = 3 marks)**

6

Using only the numbers in the cloud, write down

(i) an odd number

.....

(ii) a multiple of 4

.....

(iii) two numbers which have a sum which is a prime number

.....

(iv) the value of  $2^3$

.....

**(Total for Question 6 = 4 marks)**

7 Here is a sketch of triangle  $ABC$ .

Diagram **NOT**  
accurately drawn

$BC = 8.5 \text{ cm}$   
Angle  $B = 68^\circ$   
Angle  $C = 35^\circ$

Draw an accurate diagram of triangle  $ABC$  in the space below.

**(Total for Question 7 = 3 marks)**

- 8 The graph shows the cost of using a mobile phone for one month for three different tariffs.

The three tariffs are

- |          |               |   |
|----------|---------------|---|
| Tariff A | Rental £20    | every minute costs 20p                            |
| Tariff B | Pay as you go | every minute costs 50p                            |
| Tariff C | Rental £25    | first 60 minutes free, then each minute costs 10p |

- (a) Label each line on the graph with the letter of the tariff it represents.

(1)

Jim uses tariff A for 100 minutes in one month.

(b) Find the total cost.

(1)

£ .....

Fiona uses her mobile phone for about 60 minutes each month.

(c) Explain which tariff would be the cheapest for her to use.

You **must** give the reasons for your answer.

(2)

---

9 Jason hired a van.

**Fuel**  
**98.9p**  
**per litre**

The company charges £90 per day plus the cost of the fuel used.  
The van can travel 6 miles for each litre of fuel used.  
Fuel costs 98.9p for 1 litre.

On Monday Jason hired the van and drove from London to Cardiff.  
On Tuesday Jason drove from Cardiff to Edinburgh.  
On Wednesday, Jason drove from Edinburgh back to London and returned the van.

Jason thought the total cost would be about £400.

Jason uses this table for information about distances between cities.

<b>London</b>			
153	<b>Cardiff</b>		
212	245	<b>York</b>	
413	400	193	<b>Edinburgh</b>

Work out the total cost of hiring the van and the fuel used.

£ .....

**(Total for Question 9 = 8 marks)**

10 This formula is used to predict the adult height of a baby girl.

$$H = \frac{F + M - 12.5}{2}$$

$H$  = adult height of girl (cm)

$F$  = height of father (cm)

$M$  = height of mother (cm)

Karen and Keith have a baby girl.

They are interested in finding out how tall their baby girl is likely to grow.

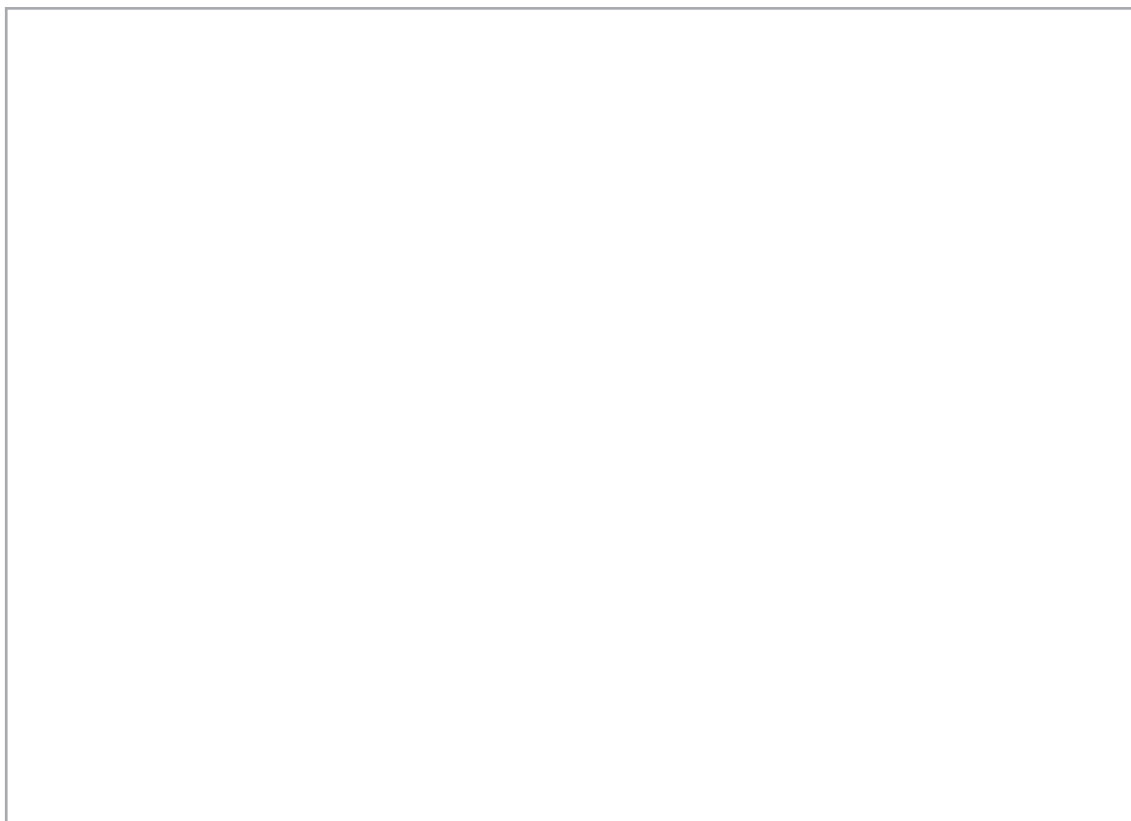

Karen has a height of 156 cm.

Keith has a height of 172 cm.

(a) Use the formula to predict the adult height of their baby girl.

Show clearly how you get your answer.

(2)

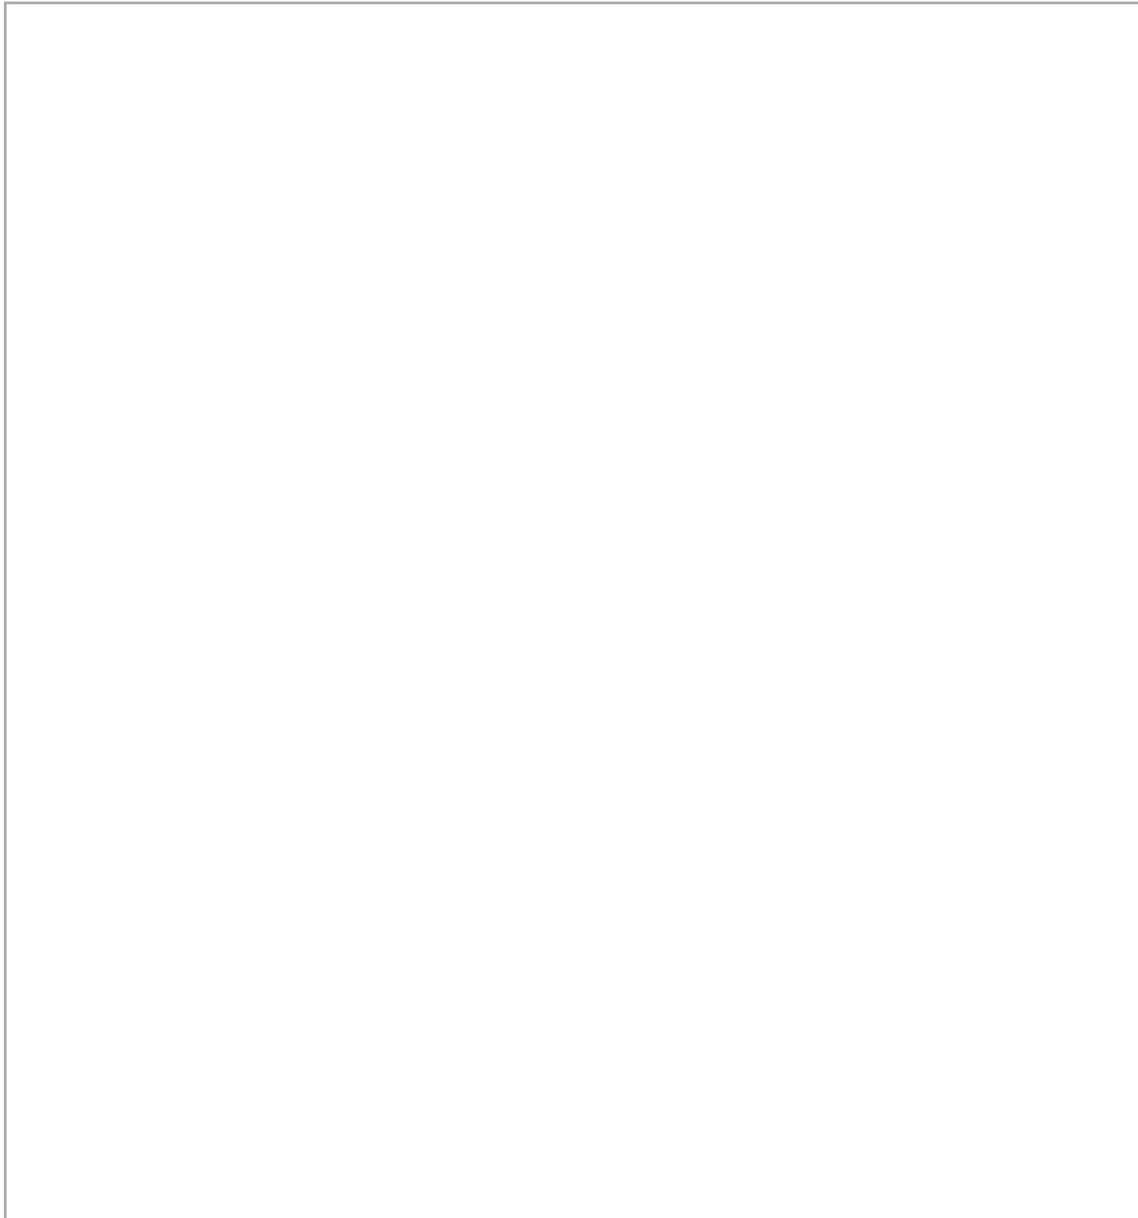

Height ..... cm

John and Jenny also have a baby girl.  
John and Jenny are the same height.

When they use the formula to predict the adult height of their baby girl they get an answer of 162 cm.

- (b) Find an estimate of Jenny's height.  
Give your answer to the nearest centimetre.

(3)

Height ..... cm

**(Total for Question 10 = 5 marks)**

11 Bill is planning the layout of a school playground.

For safety reasons he has to mark part of the playground where children cannot play games.

He makes a plan of the playground drawn to a scale of 1 cm to 1 m.

Scale 1 cm represents 1 m

For Health and Safety reasons, children cannot play games

within 4 m of the corner  $D$

Or

within 3 m of the side  $BC$ .

(a) Complete the plan of the playground accurately to show where children cannot play games.

(4)

Children can play games on the rest of the playground.  
There has to be at least  $1 \text{ m}^2$  for each child.

\*(b) Calculate the largest number of children that can play in the rest of the playground. (6)

**(Total for Question 18 = 6 marks)**

---

19 (a) Complete the table of values for  $y = x(x - 3)$  for values of  $x$  from 0 to 5

(1)

$x$	0	1	2	3	4	5
$y$	0	-2		0	4	

(b) On the grid draw the graph of  $y = x^2 - 3x$

(2)

The length of a rectangle is 3m less than the width. The area of the rectangle is  $7 \text{ m}^2$

(c) Find an estimate for the width of the rectangle.

(2)

..... m

**(Total for Question 19 = 5 marks)**

---

**20** Harry and Sally want to keep free range hens.

They have a rectangular piece of land that they intend to use for a chicken run.

The length of the land is 30 m and the width is 10 m.

Harry and Sally will need to put a fence, with a gate, around the chicken run.

They are advised that the least area a free range hen needs is  $0.8 \text{ m}^2$ .

They want to have as many hens as they can.

Hens cost £7.50 each.

Putting in the fence and gate will cost £9.85 per metre.

Work out the total cost of buying the hens and fencing the land.

A large empty rectangular box provided for the student to write their solution to the problem.

[Large empty rectangular box for student response]
